SVPCET

Bachelor of Engineering and Technology, in Information Technology

Nagpur, MH

2021-2025

HSC

Genral Science

Tumsar, MH

2020-2021

EXPERIENCE

Full Stack Traninee

Naresh IT

June 2025 – Present

Hydrabad, Telangana

- Developed a responsive Coffee Shop Website Using HTML and CSS
- Devloped a Maharashtra Website using HTML and CSS

Web Development Intern

RGVP-Web Solutions

Sept 2024 -April 2025

Nagpur, MH

- Gained hands-on experience in building responsive web pages using HTML, CSS, JavaScript, and basic backend integration with tools like PHP
- Successfully contributed to live projects, including designing user-friendly interfaces, optimizing website performance, and deploying web applications.
- Collaborated with mentors and team members using tools like GitHub while meeting project deadlines and improving professional communication.

PROJECTS

Epropertyclinic | *HTML, CSS, Bootstrap, Javascript, PHP, Git*

- Developed a real estate consulting website providing users with expert property advice, legal documentation help, and guidance on buying or selling properties.
- Built interactive and responsive web pages using HTML, CSS, and JavaScript; implemented backend operations using PHP and stored data securely in MySQL.
- Integrated service request forms, consultation booking, and document upload features to enhance user experience.
- Focused on clean UI design and SEO-friendly structure to ensure smooth usability and discoverability.

Rentopia.in | *HTML, CSS, JavaScript*

Jan 2025

- Led the frontend development of Rentopia.in, a property management platform connecting tenants and owners while simplifying property care and rental workflows.
- Implemented responsive UI components using HTML, CSS (Flexbox/Grid) and vanilla JavaScript to ensure seamless user experience across desktop and mobile devices.
- Collaborated with backend developers to fetch and display dynamic data via AJAX, integrating features such as maintenance request forms, rent reminders, and property listings.
- Translated design mockups into pixel-perfect web pages, optimizing layout, typography, and accessibility for all user interactions.
- Focused on performance improvements—minimizing asset load times, employing code splitting, and leveraging lazy loading to enhance overall platform responsiveness.
